RE: Use Tax Purchase(s) – U.S. Customs Imports

Dear Name:

The Auditing Division of the Utah State Tax Commission has received information from the United States Customs Service identifying individuals and businesses importing items and declaring Utah as their ultimate state of destination. The information we have received indicates you have imported goods into the State of Utah that you may owe Utah use tax on.

Use tax is a tax on amounts paid or charged for purchases of tangible personal property and for certain services where sales tax was due but not charged. Merchandise, such as equipment, art, jewelry, etc. purchased tax-free that is not resold is subject to Utah's use tax.

We have calculated the tax and interest due on the enclosed Sales & Use Tax Summary for the items listed on the Purchases Subject to Use Tax sheet. If after reviewing the enclosed documents you feel you do not owe the tax, or in the event sales or use tax has already been paid, please provide proof by November 13, 2006. However, if you agree you owe the tax, you need to remit the tax and interest due as calculated on the Sales & Use Tax Summary by November 13, 2006. Not responding to this notice will result in an assessment of tax, interest and possible penalties in accordance with Utah tax laws.

Additionally, please review your records to determine if you have made other out-of-state purchases that are subject to Utah's use tax laws and include those on the previously mentioned Purchases Subject to Use Tax schedule. Normally, penalties for failure to file and failure to pay are also assessed on undeclared use tax liabilities. **As part of this project, any use taxes self-reported in addition to the imported items in question will be subject only to interest. Penalties will not be assessed.**
